

## Structure of ICT Development in Cambodia (No 13) (Continue No 12)

### 4. IT Committee of EIC

The IT committee is one of committees in Engineering Institution of Cambodia and was found since the invention of EIC in 2000. All members of IT committee are people who specialize in IT field. IT committee members were divided into three levels: Asian Engineering level, Professional Engineering level, and Engineering level.

**Structure of IT Committee**

- **IT Training**

The main activities of the **IT Training** are:

- *Users Training*: train EIC members on basic computer, web design, and multimedia tools
- *Professional Training*: Network practice, Internet Programming with (PHP, ASP ASP.Net XML), Multimedia programming

- **IT International Cooperation**

The main activities of the **IT International Cooperation** are:

- *IT Caravan*: to give knowledge that focus on basic computer, Internet and E-mail using to rural area people.
- *On-site Training*: by doing the cooperation with CICC, IT Committee has provided on-site training course to trainees who come from companies, NGOs, and Government officials.
- Do projects with UNESCO (Case Study 2005 on ICT Education, Sakai E-learning platform)
- Cooperate with AOTS and IPEJ (Japan) on Green Technology Training course
- Select candidates and send them to CICC for CICC scholarship selection.
- Send candidates to AOTS to join seminar workshops.

- **IT Research & Development**

The main activities of the **IT Research & Development** are:

- *Learning Management System (LMS)*: continuously develop Khmer Unicode E-learning Platform (or LMS) to promote education in Cambodia.
- *Courseware in Khmer*: create Khmer course that can be learned on internet or on personal computer.
