### 2. Software Development Price

Now in Cambodia there are only two main kinds of software development market are Database and Web application.

#### a. Database application

The need of domestic companies and organizations on database applications relate to employee, accounting, and other data management systems. For the price of each application is base on its complexity and time-use for development.

In average, the price of database development is *500 USD per person-month*.

Estimated price was divided into 4

- Personal Database (not more than 8 functions): 300 USD
- Database for small organization (around 10 functions): 1,000 USD
- Database for medium organization (around 30 functions): 5,000 USD
- Database for large organization (around 50 functions): 10,000 USD

**b. Web application**

Web application is divided into two kinds are Static and Dynamic.

- o Static web application: Sometimes, the price was calculated by number of pages, Most of Company charges *30 USD for a page of A4 paper size*. But generally, for a whole web application is charged *300 – 400 USD*.
- o Dynamic we application: Similar to Database application, the price is base on its complexity of data processing. Most of Company charges *500 USD per person-month*, and *plus 150 USD if there is web security part*. Generally, for a whole web application is charged more than 1,000 USD.

**3. Computer Products Price**

No	Computer	Processor Speed	Price (US Dollar)
1.	Clone Desktop (Intel Celeron)	2.0 GHz – 2.4 GHz	299 – 310
2.	Clone Desktop (Intel Pentium 4)	2.26 GHz – 2.8 GHz	350 – 390
3.	Brand Desktop (Intel Pentium 4)	2.8 GHz – 3.0 GHz	650 – 1000
4.	Laptop (Intel Centrino)	1.5 GHz – 1.8 GHz	1170 – 2400

**4. Second-hand Computer Products Price**

No	Computer	Processor Speed	Price (US Dollar)
1.	Clone Desktop (Intel Celeron 2)	300 MHz – 450 MHz	90 – 110
2.	Clone Desktop (Intel Pentium 3)	500 MHz – 700 MHz	120 – 140
3.	Brand Desktop (Intel Pentium 4)	750 MHz – 1000 MHz	220 – 320
4.	Laptop (Intel Pentium 3)	500 MHz – 1000 MHz	450 – 650

**5. New Job with a Computer**

Technology has developed very fast especially on Computer and Hand Phone. Technology growth makes many job opportunities for young people, and the most popular job for them is *hand phone song and game software installation*. With this job they need only a computer with some computer basic skills such as software installation, multimedia, etc.

Since 2003 until today there are about 200 Phone song and video installation shops in Cambodia including 150 in Phnom Penh.

They can earn from 40 to 50 USD per day by using 4 to 7 computers in a super market (with 300 – 600 USD per month as shop rent price) small shop (only one computer) a long the road, they can earn only around 10 USD per day

**Mr. Seu Enyeam** is installing songs to his customer

**Mr. Pong Visal** is telling about his difficulties with his jobs

Note: The detail interview will be in **IT related acts and regulations, policies (No 3)**.
